

Reflecting on Your School

Building Blocks for Relationships and Learning

Reflect on current practices in your school and write down (a) what you are doing well in relation to each of the seven elements and (b) what you could be doing better or differently in these areas.

	What are we <u>doing well</u> right now in this area?	What could we do <u>better</u> or <u>differently</u> in this area?
Shared Activities		
Common Interests		
Reliable Communication		
Valued Roles		
Equipping Students		
“Just Enough” Support		
Regular Reflection		

What are the next 2-3 steps you might take to put these into practice?
